

Cyberoam CR25i

Comprehensive Network Security for Small and Remote Offices

Cyberoam UTM

Cyberoam CR25i is the identity-based security appliance that works on Layer 8, delivering real-time protection against evolving external and internal threats to Small Office-Home Office (SOHO) and Remote Office-Branch Office (ROBO) users.

Small, remote offices with limited security like firewall, anti-virus are exposed to Internet threats. Cyberoam delivers comprehensive protection from malware, virus, spam, phishing, pharming and more. Its unique identity-based security protects users from internal threats that lead to data leakage. Cyberoam features include Stateful Inspection Firewall, VPN (SSL & IPSec), Gateway Anti-Virus and Anti-Spyware, Gateway Anti-Spam, IPS, Content Filtering, Bandwidth Management, Multiple Link Management and can be centrally managed with Cyberoam Central Console.

Identity-based Security in UTM

Cyberoam attaches the user identity to security, taking enterprises a step ahead of conventional solutions that bind security to IP-addresses. Cyberoam's identity-based security offers full business flexibility while ensuring complete security in any environment, including DHCP and Wi-Fi, by identifying individual users within the network-whether they are victims or attackers.

Features	Description	Benefits
Stateful Inspection Firewall (ICSA Labs Certified)	<ul style="list-style-type: none"> Powerful stateful and deep packet inspection Fusion technology blends all the components of Cyberoam into a single firewall policy Prevents DoS & flooding attacks from internal & external sources Identity-based access control for applications like P2P, IM 	<ul style="list-style-type: none"> Application layer protection Provides the right balance of security, connectivity and productivity Flexibility to set policies by user identity High scalability
Virtual Private Network	<ul style="list-style-type: none"> Threat Free Tunneling Industry standard: IPSec, SSL, L2TP, PPTP VPN VPN High Availability for IPSec and L2TP connections Dual VPNC Certifications - Basic and AES Interop 	<ul style="list-style-type: none"> Safe and clean VPN traffic Secure connectivity to branch offices and remote users Low cost remote connectivity over the Internet Effective failover management with defined connection priorities
Gateway Anti-Virus & Anti-Spyware	<ul style="list-style-type: none"> Scans HTTP, FTP, IMAP, POP3 and SMTP traffic Detects and removes viruses, worms and Trojans Access to quarantined mails to key executives Instant user identification in case of HTTP threats 	<ul style="list-style-type: none"> Complete protection of traffic over all protocols High business flexibility Protection of confidential information Real-time security
Gateway Anti-Spam	<ul style="list-style-type: none"> Scans SMTP, POP3 and IMAP traffic for spam Detects, tags and quarantines spam mail Enforces black and white lists Virus Outbreak Protection Content-agnostic spam protection including Image-spam using Recurrent Pattern Detection (RPD™) Technology Spam Notification through Digest IP Reputation-based Spam filtering 	<ul style="list-style-type: none"> Enhances productivity High business flexibility Protection from emerging threats High scalability Zero hour protection incase of virus outbreaks Multi-language and Multi-format spam detection
Intrusion Prevention System - IPS	<ul style="list-style-type: none"> Database of over 3000 signatures Multi-policy capability with policies based on default & custom signatures, source and destination Prevents intrusion attempts, DoS attacks, malicious code, backdoor activity and network-based blended threats Blocks anonymous proxies with HTTP proxy signatures Blocks "phone home" activities 	<ul style="list-style-type: none"> Low false positives Real-time Security in dynamic environments like DHCP and Wi-Fi Offers instant user-identification in case of internal threats Apply IPS policies on users
Content & Application Filtering	<ul style="list-style-type: none"> Automated web categorization engine blocks non-work sites based on millions of sites in over 82+ categories URL Filtering for HTTP & HTTPS protocols Hierarchy, department, group, user-based filtering policies Time-based access to pre-defined sites Prevents downloads of streaming media, gaming, tickers, ads Supports CIPA compliance for schools and libraries 	<ul style="list-style-type: none"> Prevents exposure of network to external threats Blocks access to restricted websites Ensures regulatory compliance Saves bandwidth and enhances productivity Protects against legal liability Ensures the safety and security of minors online Enables schools to qualify for E-rate funding
Bandwidth Management	<ul style="list-style-type: none"> Committed and burstable bandwidth by hierarchy, departments, groups & users Category-based Bandwidth restriction 	<ul style="list-style-type: none"> Prevents bandwidth congestion Prioritizes bandwidth for critical applications
Multiple Link Management	<ul style="list-style-type: none"> Security over multiple ISP links using a single appliance Load balances traffic based on weighted round robin distribution Link Failover automatically shifts traffic from a failed link to a working link 	<ul style="list-style-type: none"> Easy to manage security over multiple links Controls bandwidth congestion Optimal use of low-cost links Ensures business continuity
On-Appliance Reporting	<ul style="list-style-type: none"> Complete Reporting Suite available on the Appliance Traffic discovery offers real-time reports Reporting by username 	<ul style="list-style-type: none"> Reduced TCO as no additional purchase required Instant and complete visibility into patterns of usage Instant identification of victims and attackers in internal network

Specification

Interfaces			
10/100 Ethernet Ports	4	Browser-based (Portal) Access - Clientless access	Yes
10/100/1000 GBE Ports	-	Lightweight SSL VPN Tunneling Client	Yes
Configurable Internal/DMZ/WAN Ports	Yes	Granular access control to all the Enterprise Network resources	Yes
Console Ports (RJ45/DB9)	-	Administrative controls - Session timeout, Dead Peer Detection, Portal customization	Yes
SFP (Mini GBIC) Ports	-		
COM Ports	1		
USB Ports	2		
Hardware Bypass Segments	-		
System Performance*			
Firewall throughput (Mbps)	100	Bandwidth Management	
New sessions/second	2,200	Application and User Identity based Bandwidth Management	Yes
Concurrent sessions	130,000	Guaranteed & Burstable bandwidth policy	Yes
168-bit Triple-DES/AES throughput (Mbps)	30/75	Application & User Identity based Traffic Discovery	Yes
Antivirus throughput (Mbps)	30	Multi WAN bandwidth reporting	Yes
IPS throughput (Mbps)	60	Category-based Bandwidth restriction	Yes
UTM throughput (Mbps)	25		
Stateful Inspection Firewall			
Multiple Zones security with separate levels of access rule enforcement for each zone	Yes	User Identity and Group Based Controls	
Rules based on the combination of User, MAC, Source & Destination Zone and IP address and Service	Yes	Access time restriction	Yes
Actions include policy based control for IPS, Content Filtering, Anti virus, Anti spam and Bandwidth Management	Yes	Time and Data Quota restriction	Yes
Access Scheduling	Yes	Schedule based Committed and Burstable Bandwidth	Yes
Policy based Source & Destination NAT	Yes	Schedule based P2P and IM Controls	Yes
H.323 NAT Traversal	Yes		
802.1q VLAN Support	Yes	Networking	
DoS & DDoS Attack prevention	Yes	Multiple Link Auto Failover	Yes
MAC & IP-MAC filtering and Spoof prevention	Yes	WRR based Load balancing	Yes
		Policy routing based on Application and User	Yes
		DDNS/PPPoE Client	Yes
		Support for HTTP Proxy	Yes
		Dynamic Routing: RIP v1& v2, OSPF, BGP, Multicast Forwarding	Yes
		Parent Proxy support with FQDN	Yes
		DHCP Server and Relay	Yes
		Administration & System Management	
		Web-based configuration wizard	Yes
		Role-based administration	Yes
		Multiple administrators and user levels	Yes
		Upgrades & changes via Web UI	Yes
		Multi-lingual support: Chinese, Hindi, French	Yes
		Web UI (HTTPS)	Yes
		Command line interface (Serial, SSH, Telnet)	Yes
		SNMP (v1, v2c, v3)	Yes
		Cyberoam Central Console	Yes
		Version Rollback	Yes
		NTP Server Support	Yes
		User Authentication	
		Local database	Yes
		Windows Domain Control & Active Directory Integration	Yes
		Automatic Windows Single Sign On	Yes
		External LDAP/RADIUS database Integration	Yes
		User/MAC Binding	Yes
		Logging/Monitoring	
		Internal HDD	Yes
		Graphical real-time and historical monitoring	Yes
		Email notification of reports, viruses and attacks	Yes
		Syslog support	Yes
		On-Appliance Reporting	
		Intrusion events reports	Yes
		Policy violations reports	Yes
		Web Category reports (user, content type)	Yes
		Search Engine Keywords reporting	Yes
		Data transfer reporting (By Host, Group & IP Address)	Yes
		Virus reporting by User and IP Address	Yes
		Compliance Reports	45+
		VPN Client	
		IPSec compliant	Yes
		Inter-operability with major IPSec VPN Gateways	Yes
		Supported platforms: Windows 98, Me, NT4, 2000, XP, Vista	Yes
		Import Connection configuration	Yes
		Certification	
		ICSA Firewall - Corporate	Yes
		VPN - Basic and AES interoperability	Yes
		Checkmark UTM Level 5 Certification	Yes
		Compliance	
		CE	Yes
		FCC	Yes
		Dimensions	
		H x W x D (inches)	1.97 x 8.86 x 8.07
		H x W x D (cms)	5.0 x 22.5 x 20.5
		Weight	2.1 kg, 4.62 lbs
		Power	
		Input Voltage	100-240 VAC
		Consumption	24.8W
		Total Heat Dissipation (BTU)	85
		Environmental	
		Operating Temperature	5 to 40 °C
		Storage Temperature	0 to 70 °C
		Relative Humidity (Non condensing)	5 to 95%
		Cooling System - Fan	1

*Antivirus, IPS and UTM performance is measured based on HTTP traffic as per RFC 3511 guidelines. Actual performance may vary depending on the real network traffic environments.
